

Dear Competitors,

GT3 Legends Eligibility Clarification for the 2026 Season

We look forward to welcoming you to what is shaping up to be an outstanding 2026 GT3 Legends season.

We would like to take this opportunity to clearly confirm our position regarding eligibility criteria for the series.

GT3 Legends is dedicated to preserving and celebrating GT3 cars that were homologated and actively competing within our defined eligibility period of 2006–2012. As such, cars originally homologated outside of this window are not considered eligible, even if they are subsequently presented in a specification that falls within the eligible period. This includes, but is not limited to, examples where GT3 variants share chassis with other GT3 models outside of the homologation window or GT3 cars which share chassis and structural origins with Cup or GT4 models.

This eligibility ethos is essential to protecting the sporting integrity, historical authenticity, and long-term value of genuine period GT3 cars. It ensures that the series remains true to its purpose: providing a competitive platform for cars with authentic GT3 homologation and race presence during the 2006–2012 era, rather than vehicles converted retrospectively to resemble eligible specifications.

We recognise that the evolution of GT3 machinery over time can make eligibility less straightforward. We therefore strongly encourage all competitors to confirm eligibility with the organisation prior to purchasing or entering a vehicle, and we remain available to provide guidance where required.

We appreciate the continued support and commitment of our competitors, and we look forward to an exceptional season ahead.

Kind regards,

The GT3 Legends Team
